

# Graduate Supervisory Experience Survey 2021/2022 Report

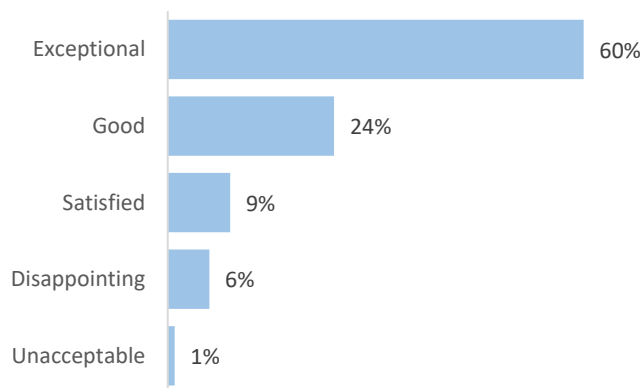

The Temerty Faculty of Medicine is committed to ensuring that our students are supported to academically thrive while engaged in their graduate training. An important component of this training involves your supervisory experiences as a thesis-based Master or Doctoral student. The primary objective of this survey is to explore the supervisory experience of our thesis-based graduate students. Participation is voluntary. The results from this survey will help inform the Temerty Faculty of Medicine educational leaders to ensure the best educational experience for our graduate students.

<b>93%</b> are Satisfied or higher	<b>48%</b> Response Rate	<b>1203</b> Respondents	<b>10</b> Departments
---------------------------------------	-----------------------------	----------------------------	--------------------------

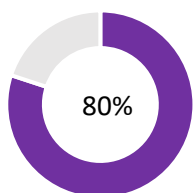

## Respondent Demographic: Degree

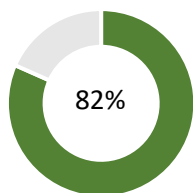

## Question: Overall, your supervisor had the following impact on your training:

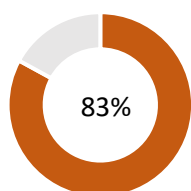

## Areas of Excellence

Avoids situations where there is a clear conflict of interest.

Treats you with respect and maintains a professional relationship.

Your supervisor appropriately acknowledges your contributions in presentations and in published material, either as co-authorship or where appropriate, first authorship.

## Student Satisfaction 2020/21 & 2021/2022 Comparison
